

Another Stonewall County Group Gave Hamlin Another Education Inspection

Senior Classes of Aspermont, Sagerton, Old Glory in Hamlin Last Thursday, Mar. 9

Evidently the idea of learning, by actual observation, is gaining headway in our good neighbor county to the north.

Last Thursday the second group of Senior Classes were visitors in Hamlin, coming from Aspermont, Sagerton and Old Glory. These classes came by private cars and were met at the Chamber of Commerce early in the morning and escorts conducted them on the rounds of the industrial places of Hamlin. It was observed that again Kurt Schoeman and Eddie Jay were in charge of the classes and as the number was far greater last Thursday than the previous week. Two new hands were asked to "escort." One of the young men was J. J. Waggoner Sr. and the other was Cliff Reynolds, two druggists, by-the-way, and it looked like they were doing a good job of it too.

The usual rounds were made of the Bakery, the Cement Mills, the Hatchery, the Oil Mills and Compress. And this past week they added the Herald office to their list of interesting places to observe and maybe learn a bit.

The Herald can say for that bunch of 50 girls and boys and their sponsors that they were as fine a gang as can be found anywhere. They were very interested, gentle and easy to entertain. In the Herald shop, they were interested in how pages of the paper are formed, how the press operates and how the type is set on the linotype machine. They seemed to remember that somewhere they had learned that printing was one of the oldest arts, and to day is one of the most used of all the many inventions of mankind.

Below is a list of those who registered for the banquet at the Model Hotel, given in their honor by the Chamber of Commerce and Hamlin business men, from 6:00 to 7:00 P. M. Following the dinner they were guests of the Ferguson Theatre which made a fitting climax for a busy and tiresome day.

SERVICES SUNDAY AT YOUTH FORUM METHODIST CHURCH CONTEST WINNERS

Rev. Hanks, pastor of the Methodist Church, has been on the sick list for a week or more and was unable to fill his pulpit last Sunday. But he requests the Herald to say for him that this coming Sunday at both services, morning and night, the regular preaching services will go on at the church.

Rev. A. W. Gordon of McMurry College will preach this Sunday. Rev. Hanks is improving and he says that he hopes to be able to be out by Sunday. His son, David, age 14, also has been very ill but he too is improving and should soon be up again.

Don't forget that arrangements have been made for regular preaching at the church Sunday. Your presence will cheer the pastor and encourage the visiting minister.

DUST NEWS SPREADS LIKE BAD NEWS, SEE!

Weather is something to talk about . . . and it makes no difference what kind of weather. Texas is noted for its varied weather, and West Texas gets credit for a lot of weather that just happens because West Texas is so large that "weather must cross it" in order to get down east or south.

Word comes from points in East Texas, Central Texas that West Texas is kicking up a lot of dirt. Wrong again, buddy. That dirt you see gently drifting along or down in your country is not "durn." It hits our country floating all the way from two inches high to five miles up. It is bad news and travels just about as fast.

Now when will it stop? Old timers say the dust storms will not stop till it rains and also that it will not rain till the wind stops blowing. That leaves us in a heck of a fix. Oldtimers also say that some of these mornings we shall wake up and see the whole country overcast with dark clouds and ere long the whole country will be floating in real water, dust or no dust, wind or no rain. And that is what has happened many times before. And the country will bloom like a garden.

Old West Texas will make more than we know how to use. That's right. You see the wind and dust we have been having is just a freak of March, and March will soon be gone.

J. C. Culbertson, who has become totally blind the last four years, was taken to the St. Paul's Hospital in Dallas on Tuesday of this week for an operation. The operation was performed this Thursday morning and evidently he is getting along all right as no message had been received before the Herald went to press. Mr. Culbertson is 78 years of age.

E. M. Koepsel of Anson, the Jones County agent for Watkins products, was over Monday and placed the Watkins ads in the Herald and ordered the paper to him each week.

Advertising is the key to world prosperity; without it today business would be paralyzed. — Julius Klein.

FOTBALL AND ATHLETICS

HIGH SCHOOL P.-T. A. MARCH 23

Who demands that a high school have a winning foot ball team? The Coach? Heads of the school? The School Board? The citizens? or mothers of the team? What is its price and who pays it?

Is a well balanced physical education program of only importance to growing children and do we provide it?

Coach Smith is anxious to talk to parents and especially mothers of boys on this subject. This is an urgent request from the Parent-Teacher Association for you to spend an hour of your time in honest discussion of these questions and any others that come to you.

Come early so we can begin promptly at 3:45 next Thursday, March 23.

RABBIT DRIVE AT SWEDONIA

The Swedonia people say they have too many rabbits and therefore on THURSDAY of next week they are having a drive and all "gun totin'" men who can handle a gun carefully are invited to come out. Starts at the school house at 8 A. M. A round will be made out and back to the school by noon. Yep, a real old fashioned dinner will be served to all "shooters."

In the afternoon another round will be made and lots of men are needed. If you got a "shooter and can shoot" you can eat all the chicken, pies, cakes, pickles, etc., etc. you can carry on the afternoon round up.

NALL'S ICE HOUSE

Am now ready to serve you ice. Have just opened up with a full house and can serve it at the curb from 12 1/2 pounds up . . . as good as can be made. Drive by, we also handle many articles needed everyday in your home. But when you think of "Ice think of Nall."

J. T. NALL'S SOUTHERN GARDEN

Mr. and Mrs. C. A. Carter and son, Charles, left Thursday, for Crosbyton where they will visit their son and his family.

Mr. and Mrs. V. M. Jean, who have been living at Dumas the past year, have moved back to Fisher County at Hitson.

Through the cooperation of the Hamlin High School officials, each Hamlin High School student will write an essay of not less than 700 words or more than 1000 words on the subject of "WHY TRADE IN HAMLIN." The contest will close at 4 P. M. on March 31st. All students will register their essays by number with Miss Bernice Whiteley, English teacher in the Hamlin High School.

The winners in the contest will receive the following awards:

First Place-----\$10.00 in cash.
Second Place----- 5.00 in cash
Third Place----- 2.50 in cash.
The next seven places, \$1.00 in cash.

Additional awards:
The winners of the first three places will be given free luncheons at the ROTARY and LIONS Clubs, where they will be given an opportunity to read their essays.

The ten winning essays will be published in the Hamlin Herald, one each week till run.

Many towns the size of Hamlin have practically destroyed themselves by spending their monies outside of the towns where they earn their livelihood, thus eventually destroying their towns and their own jobs. Very little has been done by the small towns to effectively combat this loss of business and until the people recognize the serious blunder they are making, small towns will continue to go down to the point where business is unprofitable.

Every person in Hamlin who is interested in seeing your home town grow and maintaining its position along with other towns can easily find out that a vast majority of standard brand goods can be bought for less money right here in Hamlin than in larger towns. This means not only more purchasing power for the individual but the enlargement of your home town.

The beautiful churches, schools, paved streets, etc., have been made possible through your spending in Hamlin and if we are to continue to maintain these institutions in Hamlin, we must look forward enough to know where our dollars are going.

It has been often said, "If a greater part of all dollars earned in Hamlin, were spent in Hamlin, our town would be at least one-third larger."

Your Chamber of Commerce respectfully urges every citizen of Hamlin to read the essays that will soon be printed in the Hamlin Herald and try and develop in ourselves and neighbors a consciousness on the subject of "WHY TRADE IN HAMLIN." 'WHAT HELPS HAMLIN, HELPS US.'

MISSIONARY FAREWELL SERVICE

Hamlin is to bid farewell to two of its young people soon.

Mr. and Mrs. J. C. Holden and their small sons, Miles, Gayle and Ronnie, are leaving to do missionary work in South America. They are going about one thousand miles up the Magdalena River in the interior of Colombia. They are going to preach the gospel to these natives, many of whom have never seen a white man before.

Mr. and Mrs. Holden have been in Seattle, Washington the past six years preparing to go into the mission fields. While in Seattle they have been in contact with missionaries from Boreno, Java, and many islands of the South Seas. They will be telling some of these experiences in the farewell service at the Hamlin High School Auditorium Sunday night, March 26.

Several communities where Mr. Holden lived as a boy will be well represented, such as Boyd Chapel, McCaulley and Neinda and Plasterco. Several pastors who have known Bro. Holden, are coming from different towns. A nationally known evangelist and accordionist from San Antonio will assist in the services.

THE J. C. HOLDEN FAMILY

These people will leave immediately for San Francisco to take a boat for South America. The public is invited to attend. It will be an inspiring service and you will be inspired to see young people from Hamlin giving their lives in His service.

Sunday night, March 26th.

1/2 MILLION IN TEXAS

Through this telephone, and half a million others like it in Texas homes and offices, Texans talk about oil and cotton and livestock . . . about who will make a fourth at bridge, and what the doctor said to Henry.

To clear the way for these calls, 8,700 telephone people work along the lines, or in the 314 offices that are the crossroads of the company's 2 1/2 million mile network of telephone wires in Texas.

More than 10 million dollars in wages, nearly 5 million dollars in federal, state, and local taxes, help make up the total of over 24 1/2 million dollars this company spent last year to operate its Texas telephone system.

These figures are big because the telephone company has a big job to do in Texas: The job of giving fast, dependable telephone service at low cost to the user.

THE LEDGE-SITTER

These days we read of "ledge-sitters," a species crazy humanity actually, or some fool trying to attract attention. Such critters should have all the encouragement possible once they are "sitting." The street should be cleared so that no unsuspecting pedestrian could be hurt by the jump or fall—and instead of going into a fit over trying to save the fool, just megaphone to him "all-right son, the way is clear now, just come on down and spatter over the street if you want to."

LONG RANGE GUNS

The "three mile limit" is an ancient measure to tell just where a state or nation's water rights extend. Beyond that it seems the deep blue sea begins and belongs to everybody.

According to a Texas Senate bill our line to the "deep blue sea" should stop about 27 miles out. Because the old 3 mile imaginary line is no longer applicable if we are to set the "out-to-sea" by gun shot.

Modern guns shoot at least 27 miles out and the Texas Senators mean to claim that much water, that much air and that much land and all that is beneath it. Why not? Who could complain? Uncle Sam has no right to kick. It is 27 miles of watery slope and if the distance is to be measured by cannon shot... maybe some of these plays we can push old Texas out 50 miles into the Gulf. Do you think Texas is big enough? The oil, the sulphur and everything else under that 27 or 50 miles belongs to Texas.

LETTER FROM MR. ARNETT

Springfield, Missouri
March 1, 1939.

Dear Mr. Pope:

How is everybody? You all want it to rain. Up here we want it to quit. It is either raining or snowing or too cold for anything but to sit by a big fire... just stay in the house and wait for spring. Then guess we can stick our heads out.

This leaves us all feeling fine.

I am sending you a dollar check for the paper one year for my daughter, Margaret Witt, 612 Mitchell St., Springfield, Mo.

A. G. ARNETT.

NOTE: This letter is from one of Hamlin's pioneers. He went to the home of his daughter last year to make his home. He is missing the beautiful Texas sunshine and balmy weather that prevails most of the time during our winters. He is dead right about us wanting rain down here. Had Mr. Arnett been here Saturday he would have gotten an eye full (of sand). It must have blown in from old Missouri or Kansas or maybe Oklahoma. But the rains will come and then we shall see a beautiful country. Thank you Mr. Arnett.

ANOTHER LETTER

4203 Junius St.,
Dallas, Texas,
March 14, 1939.

Dear Mr. Pope:

Enclosed find one dollar. Please renew my subscription to the Herald.

We have had a lot of rain here, but you folks must be kicking up a lot of sand out there, for about once a week we have a duster hit here from that direction.

Best regards,

MRS. IDA DEAN.

DUNNAM GROCERY HAS NEW OWNERS

W. E. Dunnam, who has been operating his grocery on the corner "where the two highways cross," for about a year now, or longer, has sold his place to J. Frank Gray and J. G. (Buddy) Jackson.

The new owners are naming their place of business the "B. & F. Food Store." Evidently the "B" stands for Buddy and the "F" stands for Frank. Anyway it is "B. & F." This means that the grocery on the famous corner where the Rotan-Stamford road starts, where the Aspermont road begins, will continue to be a store place as well as a service station place. There is no connection in the two kinds of business, however.

These fellows are handicapped a little by so much new construction going on but the roads will be finished some day and should eventually be an asset to all business on "four corners."

Mr. Gray has been in Hamlin quite a while. He formerly operated a laundry here. He needs no introduction now.

That little fellow J. G. (Buddy) Jackson, is a young man from Stamford, a fellow who got his size and weight in a grocery store, and it must have been a good one. Jackson does not weigh but 235 pounds, and he looks it. He seems as jolly as he is large, too. And here is another thing about that young Jackson—he is quite a single man too.

These boys are running an introductory ad this week. They want to make your acquaintance and invite you to call by their place of business any time.

"What do you think is the trouble with farming?"

"Well, replied Farmer Bentover, 'in my day when we talked about what we could raise on 60 acres, we meant corn—not loans.'"

To Query Women All Over South

Touring Reporters have now asked over 1,200 women and girls of leading Southern Cities the now famous question: "Were you helped by CARDUI?"

Averaging all replies so far shows that 93 out of every 100 users questioned declared CARDUI benefited them!

Users by thousands are eager to tell how CARDUI has given them appetite; helped them gain strength; has thus relieved them of the symptoms of functional dysmenorrhea due to malnutrition. Many also say that, when symptoms indicate the need, CARDUI in larger doses helps "at the time" to soothe pain.

An open invitation to all square dance teams to come to Abilene March 24-25 for a square dance contest in connection with the West Central Texas Livestock Show and Rodeo was issued this morning by Charles Bacon, president of the Abilene Booster Club. First prize of \$10 and second prize of \$5 is being offered the best square or set, and a special prize of \$2.50 is offered each of the two best callers.

The contest and general square dancing will begin each night at 8 o'clock in the Automobile building of the West Texas Fair grounds. Each dance team is asked to represent some town, county, or community. The square dances will be feature evening attraction of the livestock show program.

Though we travel the world over to find the beautiful, we must carry it with us or we find it not.—Emerson.

CONOCO GERM PROCESSED OIL
from Your Mileage Merchant

Dump Winter-fouled oil. Whatever you do, drain and refill now with *something*. But drain and refill with Conoco Germ Processed oil and then your engine's OIL-PLATED. Then it's got more than swell fresh oil down in the crankcase—it's got another big plus *all the way up*... It's got fresh surfacing... OIL-PLATING. That comes from the actual union of this patented oil direct with inner engine surfaces. Conoco Germ Processing gives this oil so much "power of attraction" that it cannot drain down and leave engine parts bare, though

your car stands by the hour or speeds by the hour.

Never all Spring and Summer, with Germ Processed oil, can your engine suffer rasping "dry starts"... not with every square inch always oiled *in advance* by drain-proof OIL-PLATING. Nor will four to five thousand revolutions per minute whirl away this implanted OIL-PLATING. It stays on. It helps the oil-level to stay up. Your OIL-PLATED engine and Germ Processed oil will both be giving you *plus* mileage. Change today to Your Mileage Merchant. Continental Oil Company

Headache, Bad Breath Tell of More to Come

Just as Paul Revere's famous ride warned of the Redcoats' coming, so Nature's messengers—headaches, biliousness, bad breath—often warn of faulty elimination.

Neglecting these signs may cause a host of constipation's discomforts: sour stomach, belching; no appetite or energy; mental dullness.

It's so easy to wake up your lazy insides. Just take spicy, all vegetable BLACK-DRAUGHT. Its unusual help comes from its principal ingredient—an intestinal tonic-laxative which imparts tone to lazy bowel muscles.

Millions of packages used testify to BLACK-DRAUGHT'S merit. Try it.

THE HOME ECONOMICS CLUB ENTERTAINS WITH SILVER TEA

The members of the Home Economics Club of Hamlin High School entertained Tuesday, March 14, 1939, from 3:30 to 5:30 with a Silver Tea in the Home Economics Department of the high school.

In the receiving line were Miss Faye Duncan, sponsor, the officers of the club, Dorothy Gardner and Mignon Waggoner, and the club queen, Selma Hassen. Presiding over the register table was Maurine Berry.

The tea table was laid with a white lace cloth over pink and was centered with a crystal bowl of sweet peas on a reflector encircled with fern. Tall pink tapers burned in double crystal holder. Loleta Ubben and Anna Mae Calhoun presided over the silver tea service. They were assisted in serving by Rosemary Carlton, Clara Louise Shelburne, Florine Morgan, Twila Ruth Smith and Herbie Faye Johnston. Gladiolas, fern, candles, and sweetpeas decorated the rest of the department.

A continuous program consisted of a reading by Jimmy Clements, a tap dance by Barbara and Naomi Young, and two accordion solos by Mrs. Joe McCrary. General wear and special occasion dresses made in the second and third year clothing classes were modeled by Geneva George, Peggy Greenway, Faye Barton, Lorene Rose, Mary Elizabeth Tindal, Bessie Joiner, Myrl Carlton, Marjorie Riddle, Ruth Ellison, Helen Barnes, Jean Young, Mary Jo Price, Earlene Johnson, Frances Fannin, Valeta Crow, Julia Pitcock, Ruby Stevens, Billye Beth Carter, and
